Teacher.

This report is for teachers of district schools that are not graded schools. A graded school is considered to be one employing two or more teachers; its report should be made on Form 13-B. The teacher is not entitled to her last month's salary until this report is made as required by law. *A duplicate report must be sent to the County Superintendent of Public Instruction, and the Clerk's copy should be carefully preserved for the guidance of the next teacher*, and as the basis for the annual report. To find the *average daily attendance*, divide the total attendance in days by the number of days the school has been taught.
